

**Speaking notes by the Sedibeng District Municipality Executive Mayor, Cllr. Mahole Simon Mofokeng on the occasion of the PMT Meeting held on the 28<sup>th</sup> July 2010, at the Lesedi, in Sedibeng**

---

Colleagues,

Officials

The much vaunted need for the upgrading of our Regional Sewer Works is taking shape. It is clear that with the number of new human settlements in our District, something had to give. The sewer was the first to go. The continued development of the District was held ransom by the lack of investment in our sewer works.

We are committed to the development of our communities. Sedibeng is growing in leaps and bounds. It would have grown much faster had it not been of the sewer issue. I am happy to notice that at last there seems to be movement from the National Government on this matter.

I have for some time now been trying to set up a meeting with the Minister of Cooperative Governance and Traditional Affairs. It is with pride that I notice the move to assist in this regard. I hope that we will act with attendant haste to carry out this Multi-Year Project. Our efforts are beginning to bear fruits.

I Thank You.
