

Sedibeng District Municipality

REGISTER YOUR PRIVATE HOME FOR A HOME STAY DURING THE 2010 FIFA WORLD CUP

About 350 000 international fans are expected to visit South Africa for the FIFA 2010 World Cup, and accommodation for this event has been identified as one of the challenges.

It is for this reason that Sedibeng District Municipality is encouraging homeowners to register private homes on the Sedibeng accommodation database to accommodate fans in home stays.

Sedibeng cannot guarantee the booking of your establishment, but will ensure that a consolidated database of all home stays in the Sedibeng region is forwarded to the relevant authorities.

Your establishment will also be featured on the Sedibeng website if the basic information is provided.

It will remain your responsibility to adhere to the basic requirements and the conditions of the relevant local authority within the Sedibeng region.

Accommodate supporters, showcase real South African hospitality and reap the benefits of the 2010 Soccer festivities!
